Comments about [La Connectique](#) - Celluloïd Mata

ME

This is one of the few records I took a chance on that actually disappointed me. The music on here is pretty awful, but at least I wasn't expecting anything great.

JUST DO IT

I'm listening to this record right now and its pretty ill

Kage

Ok, thanks for clarifying.

Kabandis

It's a very unmusical album, but not diverse or innovative enough to make up for it. The entire record is just noisy percussive loops repeated over and over with very little variation and no background. There was one small part that had tonal progressions, and while I enjoyed it, it went nowhere when it could have developed into a very nice song.

mIni-Like

That kinda says absolutely nothing. Why wasn't it any good? This isn't very helpful...
